

Brazilian Blowout Treatment Consent

Brazilian Blowout improves the overall condition of the hair by creating a protective protein layer around the hair shaft to eliminate frizz and smooth the cuticle, instantly transforming the look and feel of your hair for up to 12 weeks.

Brazilian Blowout is not guaranteed to completely straighten your hair. If your hair is wavy, the Brazilian Blowout will make your hair appear naturally straight and healthy. If your hair is very curly, it will minimize frizz while enhancing the appearance of the natural wave/curl. If you have straight, frizzy hair, this treatment will eliminate frizz and promote radiant shine.

Chris Le Salon

Be sure to ask your stylist for your personal expected outcome prior to your Brazilian Blowout Treatment.

The Brazilian Blowout will last for 10-12 weeks if the Acai After-Care Maintenance product line is used. The Brazilian Blowout is a cumulative treatment, in that the more you receive it, the healthier the hair will be and the longer the result will last. We do not guarantee Brazilian Blowout results without the purchase of the Acai After-Care Shampoo and Conditioner. For best results, hair should be blow dried after each wash.
